Let's Grow Something!

Choose a plant, give it a home, and become a garden scientist.

1. Meet My Plant

Gardener's name: _____ Planting date: _____

My plant is: _____ I named it: _____

2. My Planting Supplies

- [ ] Container with drainage holes
- [ ] Potting mix
- [ ] Seeds or a small plant
- [ ] Water and a small watering can
- [ ] Sunny or suitable growing spot
- [ ] Plant label or seed packet

3. Planting Day Checklist

- [ ] I filled my container with potting mix.
- [ ] I planted at the depth shown on the seed packet.
- [ ] I watered gently and let extra water drain.
- [ ] I found a place with the right amount of light.

4. My Garden Prediction

I think my plant will look like this in two weeks:

My prediction:

My 7-Day Plant Journal

Check on your plant daily. Seeds may take more than a week to sprout!

Daily Observations

Day	Soil feel	What changed?	Draw a tiny picture / notes
1	Dry / Moist (circle one)		
2	Dry / Moist (circle one)		
3	Dry / Moist (circle one)		
4	Dry / Moist (circle one)		
5	Dry / Moist (circle one)		
6	Dry / Moist (circle one)		
7	Dry / Moist (circle one)		

Garden Scientist Questions

Did your plant sprout? YES / NOT YET What surprised you?

Keep observing after Day 7 - growing takes patience!
