

# Herbs

Herbs are plants with fragrant or aromatic properties. Herbs can be used to flavor food, included in fragrances, and even a part of natural medicines.

| Name of Herb | Looks | Feels | Taste |
|--------------|-------|-------|-------|
|              |       |       |       |
|              |       |       |       |
|              |       |       |       |
|              |       |       |       |
|              |       |       |       |
